I While imprisoned at Oregon State Penitentiary I was grateful to receive a radio on Christmas eve, 2023, after spending 1616 days in Solitary confinement (beginning 7/7/23 after I was repeatedly threatened and sexually assaulted by my cell mate. Sexual Assaults are still very prevalent in Prisons even though the Prison Rape Elimination Act was enacted in 2008.

II After receiving a radio I immediately began to survey my environment via Listener Sponsored News Stations: NPR, OPB & KBOO. After analyzing 147 stories which were aired between 12/24/23 - 1/17/24, I grouped them into the following categories: 1. Community Design: 39; 2. Prominant People/Authors: 25; 3. Psychology: 20; 4. Self-Regulation issues: 19; 5. Medical Industry: 17; 5. Environmentalism: 17; 6. Legal Battles: 15; 7. War: 14; 8. Globalism: 9; Immigration: 8; 10. Education: 6; 10. Sports: 6; 11. Trump: 5; 12. III Most recently thousands of Oregonians have gone without power, The Governor Declared a State of Emergency and 17 warming shelters[158] opened in the Portland area & Citizens were killed by falling power lines, revealing the vulnerabilities of our electric Power grid/Delivery-System.

IV While Our Country argues about abortion and laws concerning the Unborn citizens, it neglects to care for the Born citizens: 1. ~50% US citizens have no access to Mental Health Care[92]; 2. 1 in 30 men are Autistic & 13% of Population is Neuro divergent[148]; 3. 15% of grown men have no close friends[42]; 4. *988 Suicide phone hotline received 60,000+ calls in its first year[173]; 5. 2/3 U.S. unhappy with their job & 50% are looking for a new job[99]; 6. 20,000 Oregonians are homeless[89] due to: a. Oregon has among worst rent/housing affordability[123] in the Nation; b. Narco States[161]; c. The Harm reduction gap[164]: Oregon ranks bottom in

access to treatment and breeds a Culture of fear & distrust; 7. Chronic noise exposure increases risks for Heart Disease and Strokes and Unproportionally effects poorer Neighborhoods[37]; 8. Whistle blower exposes Doctors profitting off overused Heart Procedure kick-back scheme[20,175]; 9. Educational tests show marked decline for U.S. & Europe in last 20-years[55]; 10. U.S. Government puts education as a low priority and focuses on Gender issues instead of Performance skills to be competitive at an international level; only 31% 8th graders are proficient in Reading and only 21% in Math[53]; 11. a Water treatment center was hacked[97]; 12. U.S. needs to cut Greenhouse gases by 40% to abide by Paris Climate agreement[67]; a. 2023 was hottest temperature ever while other places like Sweden record record lows as well[126]; b. Java Stingray went extinct; c. 90% Chum Salmon died off from Pre-industrial levels[129]; 13. Breaches against 1948 convention against Genocide[142].

V Research shows 70% of Americans are concerned about the climate but havent done anything because they haven't been asked[86]. The Great Asking, "Are you aware of the Alternatives?" DWDA[169]. Health impact Statements would be helpful[41]. Productivity is all about what you measure, if congressional productivity was measured by spinning wheels it might be high, But actually signing into law and making changes; its low. In 2023 Congress spent more time saying things than doing things[28]. It is time to re-examine the Delegation of Authority to properly assess safety, a third party is needed because the drive for profitability has over-ridden common sense safety measures[136]. Finally, Independent-

lawyers are being required to investigate Sexual assault cases in the Military instead of the Military commanders (an obvious Conflict of Interests) after an increase in cases in 2023.[69] Toxic Military leaders and Culture lead to an increase in suicides in 2023.[81] Harvard Sues for Failure to self-regulate after $11 Billion waste made in Profit off Minors.[62]

VI Research Shows being more Specific with goals Makes them easier to obtain.[87] But, the State is not interested in committing to Specific outcomes such as Measurable factors and assessments.[125,177,178] The State has not indicated any willingness to even look at the problems,[179,180] let alone solve them[117] (The Real Trauma Too Many Children Suffer While in State Custody) like the lack of transparency concerning injuries and illness.[79] Deaths reported as Natural puts them under less scrutiny.[96] We're wasting potential people.[73] Please, invest in People.[43]

VII On May 23, 2023 I was Sentenced for an Assault III, regarding a traffic accident I was in, so I have devoted the following to examing the issue: 2023 Portland traffic fatalities[147] were the highest in 30 years, major factors include population growth and city design.[124] Roads were initially sold to the Public as a Matter of Defense by Eisenhower.[84] Hawaiin youth have set an example by Suing their Department of Transportation[45] concerning its risk and effect on Climate Change and an increase in recent Natural Disasters (Manmade*). Arizona has recently designed the Nations first car-free neighborhood.[132] As Ross Gay[111] puts it:

"Theyre stealing from us", from our survival, people who need clean water, medicine or homes" The Department of Defense has a budget of $886 Billion[115]. The Oregon Department of Transportation has a budget of $6 Billion[141] They dont do community work, theyre not investing in communities, theyre taking profit out of the community[46]. The difference between Globalism and Planetarianism is that Planetarians are people who view themselves from within the community and Biosphere, rather than from ontop of it and they extend importance beyond the human species to include other life and the processes by which all life continues[166]. How to reveal and topple a Globalist leader?: follow the money[57].

VIII Its time to take the Bible back from the hypocrites[140]! WWJD: a war on drugs or a war on poverty? Jesus would have healed the sick, he said nothing about abortion or being gay and he would have been for immigration! The old Testament without the New Covenant ("This is my commandment, that you love one another as I have loved you") is Jewish and both condemn war ("you shall not kill"). If you are truly Christian, you would imagine these Truths be central to your Moral Compass, not money. Look directly and unflinchingly at Hatred and produce love. A tradition of looking at terror and to keep producing freedom fighters, oh what a great tradition, not just of the best Black or American, but the best of the Human Spirit![140] -Brother West, Culture Emotion Radio[165]

- Please stop being cogs in the Nazi War Machine. We will not be silenced, we are your bad Conscience[27] Remember the threat of Dictatorships, the Changing of facts and tradition[93,95,138]. Keep in mind errors in Research[106], always verify your sources And also, the U.S. culture and language of individuality and seperateness instead of connectivity and mutuality is a real concern.[80,181] (Visit: thenoonproject.com)
- Success is a collective effort, not just some Western medicine cookie cutter approach.[24]

PS: Effective coping methods: nostalgia[71], laughing[134], enchantment[82] and gratitude[101] (what you focus on grows) + Theatre/Drama plays of trauma[171,4]

PSS: Depression disappears when you take action! Don't go looking for hope look for action![86,136] Faith without works is dead.[168]

THE TRANSPARENCY INITIATIVE

E

Hello Google & Friends, I need your help as an Alibi and witness I to enter, explore and opensource the collective conscious/conscience/Super Ego I. Recently, I have been subject to: false narrative, defamation, fraud, extortion, outright lies, denials and toxic make-belief. I was hoping you would view my work on YouTube, Facebook and Archive.org, and consider partnering with me for a "Real News" (local, independent, non-profit) Reality TV Show, some livestream & some edited into brief episodes: Reminisent of an inverted Truman Show, where one or multiple characters record & broadcast public matters in public spaces. The Plot will allegedly revolve around the investigation into the mysteries of the Soul/conscience, its seeming lack at times when revealing collective crimes against Humanity, while discovery the beautiful and often unheard stories of real efforts many are making without the incentive of Power, money or greed. This would accomplish several things

1. an unprecedented historical, cultural record
2. A positive, humane, heartfelt change to corrupt cut throat "Reality" TV
3. A real time, interactive, open sourced Trust accounting, design & dev.
4. an example on Transparency for world leaders
5. my own mental health, Security & Protection from Deep State unconscious Military Agents &
